CSE Student & Aspiring Backend / Full-Stack Developer | **Open to internships**

EDUCATION

- **Parul University** Vadodara, Gujarat, India

  Bachelor of Technology (B.Tech) in Computer Science and Engineering *2026 – 2030*

TECHNICAL SKILLS

- **Programming Languages:** Python, C++, C
- **Web Development:** HTML5
- **Tools and Technologies:** Git, GitHub, Linux, Bash, Shell Scripting
- **Libraries:** NumPy
- **Core Concepts:** Software Development Life Cycle (SDLC), Version Control

PROJECTS

- **Project EG — Smart Headphone Break Manager** *In Progress*

  Frontend: HTML, CSS, JavaScript, Qt WebEngine. *Backend:* Python, PySide6, SQLite, Windows Core Audio (pycaw/comtypes). *Testing:* pytest, Ruff

  - Full-stack Windows desktop application that automatically mutes headphones after a configurable listening session and enforces a rest period, helping users build healthier listening habits. Combines a web-based frontend (HTML, CSS, JavaScript) with a Python backend.
  - Configurable listening and rest durations, with automatic headphone muting during rest periods.
  - Handles headphone disconnection and reconnection without resetting the listening timer.
  - System tray integration and desktop notifications.
  - Local session history and statistics stored in SQLite.
  - Automated testing with pytest and code quality checks with Ruff.
